## Primary 7 Week 5

### Literacy

Grammar **a video to help you\*\***

Homophones are words which sound similar but mean different things and are often spelt different. For example: 'by' and 'buy' both sound the same but mean different things.

Can you think of as many homophones as you can and write them down on a piece of paper. Draw a little picture next to each word to illustrate what it means.

**Place value** is the **value** of each digit in a number. For example, the 5 in 350 represents 5 tens, or 50; however, the 5 in 5,006 represents 5 thousands, or 5,000. It is important to understand that whilst a digit can be the same, its **value** depends on where it is in the number.

#### PE – Couch Island

Equipment: pillows, towels, stuffed animals, anything you can stand on, a timer, a couch.

Set-up: With permission from the adult in your house, create a trail leading to a couch in your house. Place all the equipment on the floor. It can be your choice of how long or short your trail is.

Activity: Choose your starting point and make your way to the couch. The floor is lava/water, so you must not fall off your equipment. If you fall off then you must restart the trail. Time yourself to see how long it takes.

Challenge: Use smaller towels or smaller items to really test your balance.

Get everyone involved: time other members of your household and see who can do it the quickest. Get them to create a different trail for you to go on!

#### Personal Study **\*\*Look out for a video to help you\*\***

Over the next few weeks you are going to be creating a presentation about a topic of your choice. It could be a person, a country, an animal, a football club or anything that interests you.

This week we are going to PLAN what we are going to be doing and how we are going to present it.

The video to go along with this task will talk us through what to do. I will also be available in your channels to answer any questions you have or if you need help thinking of a subject to research about.
